BUSINESS OVERVIEW

Wagend Infra Venture Limited is a public limited company incorporated in 1981, engaged in the development of infrastructure projects across multiple segments. The Company focuses on building and supporting core infrastructure that contributes to economic growth and urban development.

Its primary business activities include the development and execution of projects such as roads, bridges, flyovers, and buildings. Through these projects, the Company participates in enhancing transportation networks, improving connectivity, and supporting urban and regional infrastructure needs. Its capabilities span various stages of project execution, including planning, construction, and delivery.

The Company operates with a focus on quality construction, efficient project management, and adherence to regulatory and industry standards. By undertaking infrastructure projects of varying scale and complexity, it aims to address the growing demand for modern infrastructure and contribute to long-term development.

With decades of incorporation history, the Company seeks to leverage its experience to expand its presence in the infrastructure sector while maintaining a commitment to reliability, sustainability, and value creation.
